

The Indica / Sativa Myth — What Actually Matters

Education

MTL / Sprout demo product-knowledge deck — seed content.

Overview

- Why indica/sativa is a weak predictor of effect
- Chemotype and terpene profile over plant morphology
- How to set customer expectations honestly
- Reframing budtender recommendations around effects

Budtender Talking Points

Use this deck to guide customer conversations. Ask about desired effects before recommending a specific product, and always confirm the customer's tolerance level.

Notes

This is placeholder demo content generated for the Sprout staging environment. Replace with real brand collateral before production use.
